

## Mark Betts - Born Again

The one thing the photos don't show, is how pleased I am.

I picked up the trike from those great blokes (Hayden & Kurt) at the Trike Shop in Cardiff, in mid September. I rode it home to Oswestry that afternoon and I haven't been off it since.

I feel as if I've been born again!

As you can see from the photos, apart from the obvious conversion (from bike to trike), they have supplied a 'linked'

brake system that is operated from what was the original front brake lever position.

A Kliktronic gear-changer, foot boards and straps for my feet, a lap belt and a swivelling rack for my wheelchair.

They also fitted an electronic reverse gear operated by the original pass-switch on the handlebars.

Needless to say 'I am over the moon with it'. The trike has been very easy to get used to.

I would like to thank Hayden and Kurt very much for their hard work, and all of you at the NABD for your help and support.

I really can't explain just how good it feels to be back.

Many, many, thanks.

Mark Betts

(The NABD grant to help with the cost of the adaption was £1,185.00 this was sponsored by a donation from the Brighthouse & District MCC).
